

Serials—Checkin

Enhancement#: 3 (11/18/2003)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release:
Subject: Module: SER Status: Release: 0 Priority: 3 Weight:
Proposal: Need the ability to delete checked in issues in a batch without 'undoing' them and then deleting them one at a time.

Enhancement#: 222 (11/18/2003)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release:
Subject: Module: SER Status: None Release: 0 Priority: 2 Weight: Not Assigned
Proposal: "Add a status 'Delayed' button to the Serial Issue Detail screen to be used when it is impossible to set an expected date. The use of this button should result in: 1) an issue status of 'Publication delayed', 2) No claims generated for the specified issue, 3) a list that can be reviewed like the one generated for items having a claimed status"
COMMENTS (Enhancement Cmte): Strongly supported in the HUG DB

Enhancement#: 254 (11/18/2004)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release:
Subject: Module: SER Status: None Release: 0 Priority: 2 Weight: Not Assigned
Proposal: "Want the ability to check-in two issues, separately numbered, which have the same day of the week in enumeration (or the ability to override the ban on this)."
COMMENTS (Per Dynix): Good Idea

Enhancement#: 308 (11/18/2003)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release:
Subject: Module: SER Status: None Release: 0 Priority: 1 Weight: Not Assigned
Proposal: Would like to be able to generate a report of daily serials checkin.

Enhancement#: 316 (11/18/2003)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release:
Subject: Module: SER Status: None Release: 0 Priority: 1 Weight: Not Assigned
Proposal: Would like the ability to change the default in the Checkin Issue window in Serials Checkin from 'OK & Next' to 'OK'.
COMMENTS (Enhancement Cmte): Strongly supported in the HUG DB

Enhancement#: 603 (11/18/2003)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release:
Subject: Module: SER Status: None Release: 0 Priority: 0 Weight: Not Assigned
Proposal: "Ability to add a note, similar to the pre-checkin note. that is issue specific. Additionally, to be able to add, edit and delete notes for a specific issue of a serial at the check-in screen. (an 'issue check-in note')"
COMMENTS (Enhancement Cmte): Supported in the HUG DB

Enhancement#: 3594 (02/04/2004)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release: Horizon72.1.178.g CJK
Subject: Horizon72 CJK-add purchase number search in quick search
Proposal: Serials checkin module should add purchase number search in quick search

Enhancement#: 3595 (02/04/2004)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release: Horizon72.1.178.g CJK
Subject: Horizon72 CJK-print several selected received issues at one time
Proposal: System cant print out several selected received issues at one time

Enhancement#: 3754 (04/22/2004)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release: CJK 7.2
Subject: Display Only Local Issue in Serials
Proposal: The library predict/checkin one serial on location A, which was created when they begin to use the horizon system. They create a new location F this year, they also need checkin the serial in location F.
 If the serial issue was checkined in location A, the staff can not see the serial in the location F, they have to list all checkined issue, but the issue list is so long because the serials was checkined for about 5 years. So they hope system only show local issue when checkingin.

Enhancement#: 3878 (08/05/2004)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release: 7.3.2
Subject: Make Spine Label Exporting an Option
Proposal: With the Horizon 7.3.2 upgrade, we now have an extra step with every serials checkin, having to respond to the prompt about Spine Label Exporting.
 This feature should be an option so that libraries who print to directly connected spine label printers do not have to see the prompt.
 It might be useful to have the option available on a per session basis, or as a menu item that staff can select on an as needed basis.

COMMENTS (Per Dynix): Good Idea

Enhancement#: 3914 (08/28/2004)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release: 7.2
Subject: Choice Collection When Receive the Serials Lots
Proposal: The library want to choice collection when receive the serials lots.
 Currently, the collection code can not be changed
COMMENTS (Per Dynix): Good Idea

Enhancement#: 3915 (08/28/2004)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release: 7.2 CJK
Subject: Add the Barcode When Checking Serials In

Proposal: The serials has no item after binding , but the library want to add an inventory barcode to it. Currently, if the serials has item the system will prompt the barcode.

Enhancement#: 3916 (08/28/2004)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release: 7.2 CJK
Subject: Change the Lots Inforamtion After Check Out Lots
Proposal: The library hope they can change the lots information after check out lots

Enhancement#: 3998 (10/08/2004)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release: Horizon 7.3.2
Subject: Provide a Prompt Asking User if They Want to Print Workslip
Proposal: As in Dynix classic, provide a prompt during Serials Checkin asking users if they want to print any Workslip Notes. For many of our publications, workslips are only printed when certain conditions are met (as explained by the Special Handling Notes). In Horizon, this could be a check box on the ``Special Handling`` window. However, the window would need to appear even for issues that are not barcoded.

COMMENTS (Per Dynix): Good Idea

Enhancement#: 3999 (10/08/2004)
Category: Serials
Subcategory: Serials Checkin
Software Version/Release: Horizon 7.3.2
Subject: Display Call Number, Collection, and Location Upon Receipt
Proposal: A single staff member doing multiple checkins for multiple locations needs the automatic display of call number, collection, and location (or location code) information for the issue just received. In classic Dynix this data appears in the ``Processing Notes`` window. For Horizon, this could be the ``Special Handling`` window. However, the ``Special Handling`` window would need to appear even for issues that are not barcoded.

COMMENTS (Per Dynix): Good Idea

Enhancement#: 4032 (10/26/2004)
Category: Circulation
Subcategory: Serials Checkin
Software Version/Release: 7.3.2
Subject: Increase the Length of the Pre-checkin Note
Proposal: We find the Pre-checkin note to be an extremely useful field, but would like to see the capacity expanded to accommodate notes, replies, action taken, etc.

Enhancement#: 4283 (05/06/2005)
Category: Horizon > Serials >
Subcategory: Serials Checkin
Software Version/Release: 7.3.2
Subject: Printing Copy History
Proposal: We would like the ability to print screens that show header information including location, title, etc. (especially on prediction screen and copy history) without having to cut and paste into Word. Currently if I print in Horizon serials, it gives a printout with no title information so we have to handwrite the title at the top of the printout.
