

The Education Services Group at Dynix is pleased to announce that the workshop schedule for CODI 2005 has been compiled and posted on our registration website. You can access the class list and register online by going to <https://customer.dynix.com/training/> and clicking on the 'register for a course' link. When you enter the registration site, simply type in the word **CODI** in the text box at the top of the page.

Classes will be live, instructor-led training with complete hands-on for each participant. The following is a list of the course offerings:

November 6:

WebReporter: Desktop Fundamentals
Web Reporter: Administration Fundamentals
HIP 4 Administration

November 10:

Web Reporter: Narrowcasting
HIP 4 Administration

November 10-and ½ day on the 11th Advanced SQL for Horizon

November 11:

Practice Labs for HIP 4 and WebReporter. The practice lab is a new concept which will allow you the chance to come and practice locally in a proctored environment. The practice labs will be ½ day on November 11.

The classes will all be held at the Minneapolis Hilton, site of the CODI conference.

All classes are available for registration. Please contact a member of the education services team at Dynix at 1-800-713-9649. Or contact me directly at extension 5762.

Sincerely,

Jeff Olsen
Manager of Education Services
Dynix
